May 4, 2011

Dear Neighbors,

We realize and understand that the community has been through a very difficult time since the incident that occurred in your neighborhood on April 30, 2011.

During times of difficulty, it can feel like there is nowhere to turn, and that finding understanding is next to impossible. We want to extend our hand in support to all of those impacted during this traumatic event through the services we offer here at Victim Services Wellington. We have provided support in our community for over 10 years, offering immediate, practical and emotional support to victims of crime, trauma and tragic circumstance. This past year the staff and volunteers directly contacted and supported over 1000 people of this community needing support while working through trauma or tragedy.

Please pass on our contact information to any family or friends who may be struggling with feelings around what has happened. Please to call to get the support that is offered and needed...it takes a community to heal.

Sincerely,

Liz Kent  
Executive Director  
Victim Services Wellington
